

January 10, 2009

Dear THINK 2009 Applicants,

Thank you for participating in THINK 2009. You have truly impressed us as young, innovative thinkers with your projects. On behalf of all judges and organizers, we'd like to express our joy in reading your application materials. While our awards are limited and we have spent the last few weeks making tough decisions, our appreciation of your curiosity and tenacity is beyond words.

As you further develop your ideas and expand your knowledge through high school, you can keep connected to our community of THINKers by adding the Facebook page at <http://www.facebook.com/home.php#/pages/MIT-Techfair-THINK-Competition/80872600025> or you can stay updated with all THINK news by visiting our website at <http://mittechfair.org/think/> and join our mailing-lists there.

If you are still in high school next year, we look forward to have you joining us again for our THINK 2010. Carrying forth the momentum from this year, it will continue the mission of encouraging high school students like you to not only explore fields in science and technology, but also explore your own potentials through Innovation, Networking, and Knowledge. We hope that you will continue to act on your interests to bring about positive changes to your communities.

The ultimate award in the THINK journey is the lesson learned to be resourceful, and we hope you will apply this valuable skill set to fulfill your every passion and every dream. Please accept our congratulations on your outstanding achievements. We hope that you enjoyed this year's competition. Please also remember we are here to make THINK a meaningful experience for you, so don't hesitate to contact us about any questions or concerns as the year progresses.

A great future is now lying ahead of you. We wish you all the very best!

Sincerely,
The MIT THINK Team
